

# Dewan Mohammad Asad

📍 2/3 Humayun Road, Mohammadpur, Dhaka, Bangladesh    ✉️ diadewanasad@gmail.com

☎️ +88 01954545698    🌐 LinkedIn    🏠 Google Scholar

## PROFESSIONAL EXPERIENCE

<b>Research Assistant</b> <i>Research and Innovation Centre for Science and Engineering, BUET</i>	06/2024 – Present Dhaka, Bangladesh
<b>Intern</b> <i>Bangladesh Rural Electrification Board</i>	11/2023 Dhaka, Bangladesh

## RESEARCH EXPERIENCE

<b>Estimating Energy Requirements for Multi-Route Urban Commutes</b> <i>Supervisor: Dr. M.A. Arafat, Associate Professor, EEE, BUET</i> <ul style="list-style-type: none"><li>Developing ML/DL models using Google Maps traffic &amp; elevation data for EV energy prediction.</li><li>Collaborating with <b>Palki Motors</b> for real-world vehicle &amp; battery datasets.</li></ul>	05/2024 – Present
<b>Solid-State DC Circuit Breaker Design</b> <i>Supervisor: Dr. M.A. Arafat, Associate Professor, EEE, BUET</i> <ul style="list-style-type: none"><li>Designing <b>high-speed SSCB</b> with improved fault detection &amp; robustness to parasitics.</li><li>Focused on enhancing safety &amp; reliability in modern DC grids.</li></ul>	05/2024 – Present
<b>Advanced Control of SEPIC Converters</b> <i>Supervisor: Dr. A.B.M. Harun-Ur-Rashid, Head of the Department, EEE, BUET</i> <ul style="list-style-type: none"><li>Applying <b>PSO, GA, ANN, ANFIS, and RL</b> for optimal SEPIC control and transient performance improvement.</li><li>Investigating CCM/DCM behavior via MATLAB/Simulink and PLECS.</li></ul>	04/2023 – Present
<b>Load Forecasting &amp; PQD Classification</b> <i>Supervisor: Dr. A.H. Chowdhury, Professor in EEE and Pro-Vice Chancellor, BUET</i> <ul style="list-style-type: none"><li>Built <b>PQD classifiers</b> using Vision Transformers with GASF encoding.</li><li>Developed <b>load forecasting models</b> for Dhaka using RNN, LSTM, and GRU.</li></ul>	11/2023 – Present

## EDUCATION

<b>M.Sc. in Electrical and Electronic Engineering (EEE)</b> <i>Bangladesh University of Engineering and Technology (BUET)</i> <ul style="list-style-type: none"><li>Major: <b>Electronics</b></li></ul>	08/2024 – present Dhaka, Bangladesh
<b>B.Sc. in Electrical and Electronic Engineering (EEE)</b> <i>Bangladesh University of Engineering and Technology (BUET)</i> <ul style="list-style-type: none"><li>Major : <b>Power</b></li><li>CGPA : <b>3.63</b> (Out of 4.00)</li></ul>	04/2019 – 06/2024 Dhaka, Bangladesh
<b>Higher Secondary Certificate (HSC)</b> <i>Notre Dame College</i> <ul style="list-style-type: none"><li>GPA: <b>5.00</b> (Out of 5.00)</li></ul>	2016 – 2018 Dhaka, Bangladesh

## ACADEMIC PROJECTS

---

### Hardware Projects

- **Smart Smoke Detector Using 74-Series ICs** || Digital Electronics Laboratory || Built a 74-series IC-based system (no microcontroller) to digitize smoke sensor output, featuring adjustable alarm thresholds and a 7-second auto-reset timer.
- **Adjustable DC Power Supply Generation** || Power Electronics Laboratory || Designed a lab-grade buck-boost power supply with wide voltage range and current-limiting protection for stable operation.
- **Human Following Robot** || Control System I Lab || Developed an Arduino-based robot with IR and ultrasonic sensors to detect and follow human presence.
- **Weather Station Unit** || Communication System I Laboratory || Developed a system using Arduino and a LoRa module to transmit and receive weather sensor data from remote locations.
- **Dual Axes Solar Tracker** || Microprocessors & Embedded Systems Lab || Developed a microcontroller based dual axis solar tracker for optimum solar power generation.

### Software Projects

- **Electrical Design of a Building** || Electrical Services Design || Designed the ground and typical floor plans for a 9-storey, three-unit building, including fittings and fixtures, conduit layout, switchboard and distribution board diagrams, and a lightning protection system (LPS).
- **Panzer Fight (Arcade Game)** || Numerical Technique Lab || Developed a MATLAB-based multiplayer arcade game featuring panzer combat with shell-firing mechanics, dynamic barriers, and adjustable difficulty levels.
- **Classification of Tumours from MRI Images** || Digital Signal Processing I Lab || Classified four classes of tumors with the help of MATLAB image processing toolbox and Machine learning toolbox.
- **PSO Based Load Frequency Control** || Power Systems II Lab || Developed a Particle Swarm Optimization Based Load Frequency Control system in SIMULINK
- **Audio Frequency Filters** || Electronic Circuits II Lab || Simulated and designed active/passive bandpass/lowpass/highpass filters in Proteus, optimizing performance for precise frequency response.

## ACHIEVEMENTS & AWARDS

---

### Dean's List

- Recipient of Dean's List Scholarship for the year for academic excellence in 2020

### Admission Test Scholarship

- Recipient of Scholarship for excellent position in BUET admission test exam

## SKILLS

---

### Programming

- Verilog, Arduino, STM-32, Assembly, C/C++, C#, Python, MATLAB, Java, JavaScript, TypeScript, PHP, LaTeX, HTML, CSS, JavaScript, React, NextJS, Django.

### Softwares

- Keil-uVision4, Keil-uVision5, Quartus (Verilog), PyCharm, PSpice, LTSpice, AutoCAD, Proteus, Arduino, MATLAB, Simulink, PSAF, Cisco Packet Tracer, Altium, Adobe Illustrator & Premier Pro, Overleaf (LaTeX), Powerpoint, Excel, Word etc.

## STANDARDIZED TEST SCORES

---

### IELTS

Overall Band: 7.0

Listening 8.0 | Reading 9.0 | Writing 7.0 | Speaking 7.0
